IS YOUR COMPANY'S DATA SECURE?

We live in an ever-changing world where business needs and your employees' needs for productivity challenge the security of your organization's data. Paired with an evolving threat landscape, your organization must work harder than ever to stay ahead of the threats of tomorrow.

KEEPING YOUR DATA SECURED IS PIVOTAL TO YOUR COMPANY'S SUCCESS.

140+ DAYS
The average number of days a hacker sits on your network before they are detected.

$12M
Average cost/business impact per security breach.

72%
Of the U.S. workforce will be mobile by 2020, relying on devices other than their laptop to be productive.

87%
Of senior managers admit to regularly uploading work files to a personal email or cloud account.

WITH OFFICE 365 ENTERPRISE E5 YOU CAN BE CONFIDENT THAT YOUR DATA IS MORE **SECURE** FROM THREATS AND **COMPLIANT** WITH INDUSTRY REGULATIONS.

LET'S SEE HOW...

SECURITY AND COMPLIANCE IS INTEGRATED FROM THE START

HELP KEEP YOUR E-MAIL SAFE
Cybercriminals commonly exploit e-mail weaknesses. Minimize e-mail spam, phishing, ransomware, and other sophisticated threats with Advanced Threat Protection

SIMPLIFIED MANAGEMENT
Administrators can easily manage all their security and compliance controls across Office 365 directly from the Security and Compliance Center

COMPLIANT BY DESIGN
Office 365 meets industry and regulatory requirements such as ISO/IEC 27001, HIPAA, FISMA, EU Model Clauses, GLBA, and many others

PROTECT ALL DEVICES
Your employees use their personal phones and tablets to be productive. With Office 365 and Enterprise Mobility Suite, these devices can also be protected from potential security threats

LEVERAGE MICROSOFT'S CYBERSECURITY INTELLIGENCE AND MACHINE LEARNING CAPABILITIES

DETECT ANOMALIES QUICKLY AND ACT PROMPTLY
Through behavioral analytics, automatically identify anomalies, investigate them, and assess their risk using Advanced Security Management

PROTECT AGAINST UNKNOWN MALWARE
E-mail attachments are assessed for malicious intent and are tested outside of your environment, helping to keep you safe from the newest cyber attacks

QUICKLY IDENTIFY RELEVANT DOCUMENTS FOR EDISCOVERY
Using predictive coding and machine learning, Advanced eDiscovery can significantly reduce the volume of data to be reviewed, saving your team time and money

PROVIDES YOU WITH **VISIBILITY** AND **CONTROL**

SET CONTROL POLICIES FOR YOUR ORGANIZATION
Advanced Security Management allows you to set security policies, identify violations, and, if necessary, suspend a user's account

DISCOVER "SHADOW IT"
Quickly see what productivity cloud apps are being used with Advanced Security Management

YOU CONTROL ACCESS TO YOUR DATA
Maintain end-to-end compliance with data access controls with Customer Lockbox

GAIN CRITICAL INSIGHTS INTO THREATS
Rich reporting and tracking features provide critical insights into the targets and categories of threats to your data

OFFICE 365 ENTERPRISE E5 IS MICROSOFT'S MOST SECURE PRODUCTIVITY SOLUTION EVER.
